Part of the Department
for Work and Pensions

You have been made an appointment to attend a Group Work Focused session:

On: [REDACTED] November 2015

At: [REDACTED] am

At: [REDACTED]

Do I need to come to the Group Work Focused Session?

Yes, you must attend and take part in a Group Work Focused Session in order to receive your benefits, unless you have a good reason not to.

This session takes the place of your Work Focused Interview. If you do not take part in a Work Focused Interview your claim to benefit may be affected. If you think you have a good reason for not coming to the interview please contact me as soon as possible before the interview.

What will happen at the session?

We will be holding a group information session where we will talk to you and other claimants in receipt of Employment and Support Allowance about help we can give you to look for work or training. This session will replace your work focused interview. These sessions are informal and are aimed at helping you to make choices about your future. The session could last for 2 hours. You will be able to ask questions after the session. You do not have to say anything in the group that you don't want to.

If you need to contact us before the interview please call on the above number.
